PROFESSIONAL SUMMARY

Detail-oriented Cloud & DevOps Engineer and Electronics & Communications Engineering student at Mansoura National University. Possesses a solid infrastructure foundation in Cloud Management, Networking, and System Administration. Experienced in configuring Azure cloud architectures, network security, and PowerShell automation, while expanding expertise in Docker, Kubernetes, and Terraform.

TECHNICAL SKILLS

Cloud & DevOps: Microsoft Azure (AZ-104, AZ-900), VNets, Azure Firewall, Docker, Kubernetes, Terraform, CI/CD.
Systems & Networking: Windows Server (MCSA), Linux, CCNA, Routing & Switching, Subnetting.
Scripting & Tools: PowerShell, Bash, Git/GitHub, VS Code, IIS Web Server.

PROJECTS

Enterprise Network Infrastructure Simulation | *Cisco Packet Tracer, OSPF, VLANs, HSRP* | [\[GitHub\]](#)

- Designed and simulated a multi-tier Enterprise Network utilizing OSPF routing, SVI inter-VLAN routing, and HSRP redundancy.
- Implemented network security hardening, SSH/VTY access controls, and segmentations across 7 VLANs.

Azure Lab Infrastructure | *Azure Portal, VNets, Azure Firewall, PowerShell* | [\[GitHub\]](#)

- Provisioned secure Azure VNets, Subnets, NSGs, and User-Defined Routes (UDRs) integrated with Azure Firewall.
- Automated IIS web server deployment and virtual machine setup across Azure environments using PowerShell scripts.

Windows Server Infrastructure Administration | *Active Directory, Group Policy, IIS, DNS/DHCP* | [\[GitHub\]](#)

- Administered enterprise Windows Server environments based on MCSA labs, managing Active Directory (AD DS) and GPOs.
- Configured essential network services including DNS, DHCP, and role-based privilege management.

WORK EXPERIENCE & INTERNSHIPS

Cloud Architecture Intern

Jul. 2026 – Aug. 2026

National Telecommunication Institute (NTI)

Cairo, Egypt

- Gained hands-on experience in cloud infrastructure design, virtualization, and core cloud security best practices to build scalable environments.

Network Engineering Intern

Jul. 2025 – Aug. 2025

Telecom Egypt (WE)

Cairo, Egypt

- Participated in practical training on enterprise network infrastructure, routing/switching configurations, and active network troubleshooting.

EDUCATION

Mansoura National University

Oct. 2023 – Jul. 2027 (Expected)

Bachelor's Degree in Electronics and Communications Engineering

Cairo, Egypt

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104)

Microsoft Certified: Azure Fundamentals (AZ-900)

Cisco Certified Network Associate (CCNA 200-301)

Microsoft Certified Solutions Associate (MCSA)

SOFT SKILLS & LANGUAGES

Soft Skills: Problem Solving, Effective Communication, Team Collaboration, Adaptability.

Languages: Arabic (Native), English (Upper-Intermediate).
